REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: as shown from Applicant's declaration under 37 CFR 1.132, the present invention achieves an unexpected result over the disclosure of Pham et al, which is considered to be the closest prior art. Applicant has demonstrated that the use in Pham et al of methane as the reducing gas resulted in carbon deposition on the electrodes. Applicant has further shown that by using the hydrogen and carbon monoxide gas produced by pyrolysis as is presently claimed, the carbon deposition is avoided. Such result would not have been expected by one of ordinary skill in the art given the teachings of Pham et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harry D. Wilkins, III whose telephone number is 571-272-1251. The examiner can normally be reached on M-F 7:45am-4:15pm.
